# WHAT IS CRYPTO CURRENCY ?

A Cryptocurrency Is A Digital Coin, Designed To Be Transferred Between People In Virtual Transactions. Cryptocurrencies Exist Only As Data And Not As Physical Objects; You Cannot Actually Hold A Bitcoin In Your Hand Or Keep Ethereum In Your Safe. Owning A Bitcoin Means You Have The Collective Agreement Of Each And Every Computer On The Bitcoin Network That It Is Currently Owned By You And-More Importantly - That It Was Legitimately Created By A Miner.

# VISION

We want to create a financially secure future and fight against financial insecurity by deploying an independent contract on an immutable system. We want to bring world together without any currency barrier and border. We also aim to create a system for passive income where no one is in control and the code does everything automatically on a platform that can not be hacked or changed.

# MISSION

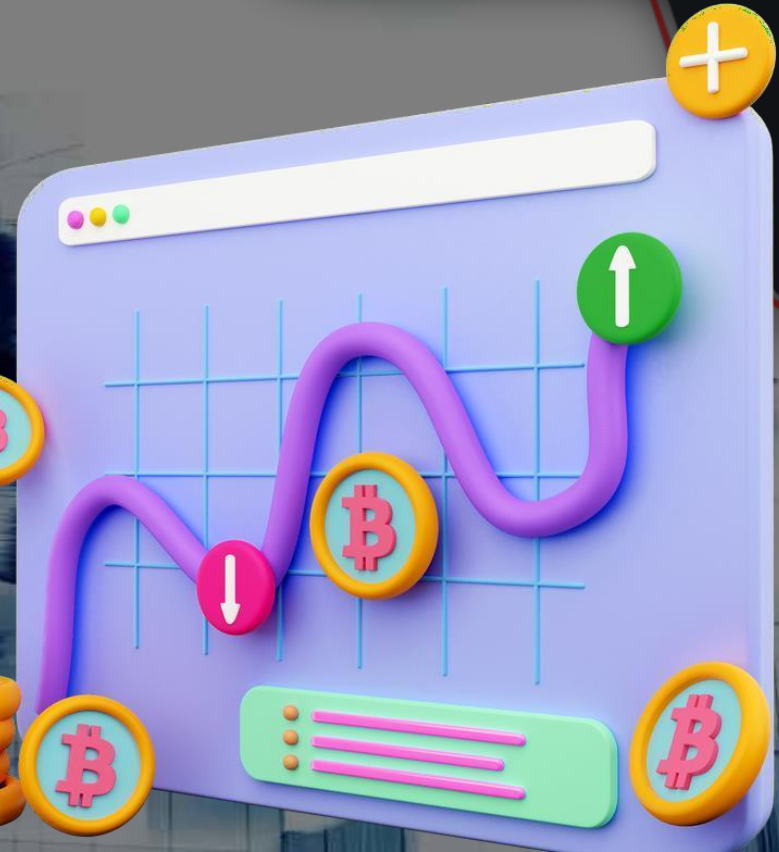

We want to create a financially secure future and fight against financial insecurity by deploying an independent contract on an immutable system. We want to bring world together without any currency barrier and border. We also aim to create a system for passive income where no one is in control and the code does everything automatically on a platform that can not be hacked or changed.
